Description

This is a metal Heydrich ornament made by Del Prado in October 1993. The model stands at just under 9 inches tall and is deceptively heavy. This model is very high in detail and retains most of its original paint. Heydrich was a high-ranking German SS and police official during the Nazi era and a principal architect of the Holocaust. He was chief of the Reich Security Main Office (including the Gestapo, Kripo, and SD). He was also Stellvertretender Reichsprotektor (Deputy/Acting Reich-Protector) of Bohemia and Moravia. He served as president of the International Criminal Police Commission (ICPC, later known as Interpol) and chaired the January 1942 Wannsee Conference which formalised plans for the "Final Solution to the Jewish Question"—the deportation and genocide of all Jews in German-occupied Europe.

Condition

The model is in good condition with no significant damage, only minor wear to the paintwork. Please see pictures for more detail.
